

Press Release Summary: A Bright Prospect: Perfective Ceuticals Announces Divine Brightening Mask Botanical Formula for Uneven Skin Tone

Perfective Ceuticals, the industry leader in anti-aging and anti-wrinkle formulas, is pleased to announce the newest addition to its signature skincare line: The Divine Brightening Mask Botanical Formula for Uneven Skin Tone.

Youth-enhancing, anti-wrinkle formulas and skincare products are the company's focus and primary aim. The most recent addition to the Divine Age Guardian line, the Divine Brightening Mask Botanical Formula for Uneven Skin Tone, upholds the company's mission and priority to offer solutions for the mature woman seeking to restore the loss of radiance that comes with age and environmental factors. Rather than a typical cream mask, the product is a paper mask laid over the surface of the face. Relying on the body's natural heat, the mask dissolves into the skin over the course of a half hour. The result is powerful hydration and healthy, brightened skin.

Using a scientifically proven formula that combines seven brightening agents, the mask helps to diminish the discoloration and dullness caused by the aging process, free-radical exposure, environmental damage, and neglect. Key natural ingredients, such as Morus Alba Root Extract, contain elements that hinder the formation of melanin. Licorice Extract and Grape Seed Extract increase the product's superior anti-pigmentation and antioxidant properties, restoring the skin's natural elasticity and youthful glow. Rosa Canina Extract shields the skin from further UV damage, while Hyaluronic Acid diminishes wrinkles and leaves the skin smooth and supple.

According to Bethany, a Licensed Esthetician and Makeup Artist from San Antonio, the Divine Brightening Mask produces instantly glowing skin in thirty minutes. She especially recommends it for brides - stress and sleepless nights before the wedding take a toll on the skin. Advising them to use the Brightening Mask for 28 days before the big day, she calls it the best pre-wedding skincare prep, ensuring deep hydration and a radiant, even complexion.

Working with the finest biochemists in skin care research, Perfective Ceuticals blends the technological advances of science with the time-honored wisdom of the natural world to create a line of superior anti-aging products. Relying upon only the highest-quality ingredients, Perfective Ceuticals guarantees the youthful, glowing results their discerning clients seek. The company also offers research, consultation and production services for cosmetic companies, dermatologists and physicians. The Perfective Ceuticals product line is available at www.perfectiveceuticals.com and select dermatologist offices worldwide.
